

Outpatient Essentials – Sickness

An insurance policy that pays cash directly to you to help pay out-of-pocket costs when you suffer a sickness and you require outpatient surgery or treatments.

Before we begin, let's see if you qualify.

What is your height and weight?

Have you had or received any medical advice or treatment within the last five years for the following:

- ▶ Heart attack, angina, atrial fibrillation, congestive heart failure, coronary artery disease that required bypass surgery, a stent or angioplasty, or a heart valve replacement?
- ▶ Stroke, transient ischemic attack (TIA)?
- ▶ Cancer, melanoma, Hodgkin's disease or leukemia?
- ▶ Multiple sclerosis, cystic fibrosis, muscular dystrophy or Down's syndrome?
- ▶ Alcoholism or drug addiction?
- ▶ Diabetes which requires insulin, or diabetes which was diagnosed prior to age 40?
- ▶ HIV or AIDS?

Because many sicknesses don't require hospitalization.

If you suddenly suffer a sickness and you receive outpatient medical treatment—even if you're never admitted to the hospital—you may need help paying for unexpected expenses and everyday bills.
